

Dear Parents,

We are delighted to welcome your child to our **Summer Camp in Faro, Portugal**, an unforgettable adventure set in the heart of the stunning **Ria Formosa Natural Park**. Our program is designed especially for teenagers who love the sea, nature, and outdoor activities — offering a unique combination of fun, learning, and personal growth.

Throughout the camp, participants will enjoy a variety of exciting **water-based activities**, including **dinghy sailing, stand-up paddle boarding (SUP), kayaking, power boating, and dolphin watching**. Each activity takes place in the calm and beautiful waters of the Ria Formosa, providing the perfect environment to build confidence, teamwork, and respect for the ocean.

Accommodation will be in comfortable **tents set within the natural park**, allowing campers to fully experience the beauty of the Algarve's coastal landscape. This setting not only fosters independence and friendship but also helps young people develop a deeper appreciation for nature.

Safety is always our top priority. All activities are supervised by **professionally trained and certified instructors**, and our staff is committed to ensuring that every participant feels safe, supported, and encouraged. Our team members are experienced youth leaders who care deeply about creating a positive, inclusive, and enriching environment.

We are thrilled to share this adventure with your child and look forward to an incredible summer full of discovery, laughter, and new experiences in one of Portugal's most beautiful natural settings.

Warm regards,

Ricardo Barradas

Director, Algarve Summer Camp

Faro 9th November 2025
